About This Game

Can you survive the alien onslaught? Alien Breed™ 2: Assault is the second chapter in the Alien Breed™ series, and is an explosive science fiction arcade-shooter with an epic story, swarms of highly intelligent alien enemies, high-impact weaponry, highly detailed and rich environments, developed using Epic Games' Unreal® Engine 3. Take control of the hero, Conrad, the ship's Chief Engineer, and continue your fight for survival across the fatally damaged space vessel, against a ruthless assault by an alien horde. Your only hope relies on reigniting the alien space craft's monstrous engines to rescue you from impending annihilation. Deep inside the bowels of the unfamiliar craft, and with time rapidly running out, ready your weapons and begin to claw your way through the darkness in a fight for survival. But you are not alone. The ship is home to the carnivorous alien horde and something else ... something yet to reveal its true intentions ... something biding its time. In addition to the thrilling single-player campaign and all new "survivor" modes, the game also offers relentless, action-packed, two-player online co-operative battle modes.

<Charming>

"Then why does it sound like you're pulling out your own teeth?" I asked. "Being a bodyguard is a real hassle—trust me on this one. I can understand if you're hesitant about licking Shatao's sandals, or being his lap dog."

I smiled because—out of the corner of my eye—Kohaku jolted to attention. He was having a terrible time trying to hide his eavesdropping. In more ways than one, that samurai was Toshio's opposite.

"Ah, no-no-no," Ige spouted, "it's only that I wouldn't deserve the position. Everyone would laugh at me and make jokes, and I'd only cause trouble for the rest of you. I can't give orders, and I'll never be respected like you and Kohaku-senpai. I—"

<Brutal>

"What do you want, Ige?!" I shouted into his face, my hand in a fist clenched around his kimono's collar, my arm lifting him off the ground and to eye level. I knew everyone was staring at me but they didn't matter. This was too important for me to be subtle anymore.

"I, I don't want to kill anybody!" Ige's cry came out as a choking moan. The revelation was simple and obvious, but those were always the hardest to admit.

Now was the time to decide. I didn't know if I should do this, or even if I could. I just knew that there would be no going back for Ige.
