You need to Make Online Payment Here: [Document Library](#) When you create an invoice or any document, add prices to item and set taxes. [Sales & Invoicing](#) In Sales & Invoicing, you can track sales and create invoices. Easily add clients, products and payments to the sales ledger. [Sales & Orders](#) In Sales & Orders, you can add products, customers and products to the sales order queue. You can also set up recurring orders and prices based on discount. [Accounts» Payment Rules](#) Set up a new account for each of your clients. Then, you can apply rules for approved payments to specific accounts. [Accounts» Accounts Receivable](#) Balance accounts receivable, balance accounts payable or reconcile accounts. [Customer Management](#) Know which customers are past due, active, closed and inactivated. You can set a payment reminder and automatically add items to a new invoice. [Sales & Invoicing» Sales Report](#) Enter and view sales reports. They include the number of sales and a profit margin by product, customer or invoice amount. [Sales & Invoicing» Sales Order Report](#) See your sales order history. Here, you can set up sales targets, set up collections, check for problems and approve sales orders
